

Ashbrook – Environmental Policy Statement

At Ashbrook we recognise our responsibilities towards the global environment in which we carry out our business. Ashbrook's environmental strategy is to improve the efficiency of its economic and environmental footprint for shareholders, employees and customers.

This is achieved through optimising our hire supply chain and maximising rental asset utilisation for both customers and Ashbrook, supported by responsible purchasing and proactive management of environmental risk.

The Directors of Ashbrook are totally committed to:

- A continual improvement of our Environmental Management System in order to enhance our environmental performance.
- Effectively communicating the policy to all employees and all interested parties.
- Meeting the standards imposed by Environmental legislation and self-imposed policies/standards relating to the environment;
- Managing environmental risk through continual improvement in performance demonstrating compliance with ISO 14001 and within the framework of our Environmental Management System;
- Setting environmental objectives and targets and enabling employees to achieve them through training and visibly felt leadership;
- The development of an environmentally efficient depot and transport policy. Continually adopting a high standard using the latest technology and best practice to make our depot and our activities as environmentally efficient as possible;
- Minimising the overall environmental impact of our hire fleet for Ashbrook and its customers through maximising its utilisation;
- Responsible sourcing of plant and access equipment by partnering with our manufacturers to continually search for the best available standards;
- Promoting a good neighbour policy to minimise and respond to any adverse environmental effects we may have on others or the environment;
